

The APM (Annual parish meeting)
Redgrave Activities Trust annual report 2021- 2022

As with many other organisations some of the activities held in the activities center have had to be curtailed during the last year in observing the covid protocols.

That being said, with these protocols having eased we have once again been able to continue with further activities.

We have been able to continue with the core outdoor sporting activities such as the Redgrave Rangers football fixtures on the playing field, which is in a good state of health and the successful annual Cyclocross meeting held in November each year was equally successful.

The art club has resumed their weekly meeting and thoroughly enjoyed by those members attending.

We have contacted the organiser of the monthly pensioner's luncheon club who had previously distributed to pensioners homes during the height of the pandemic and it is hoped that these monthly luncheons may be resumed in the activities center itself soon.

The center is also opened for the local Ramblers Club who are able to use the toilet facilities prior to setting off and on their return to the car park.

The center is also open for hire for private parties of which there have been several during the course of the past year.

The building is also used for the purpose of the public voting in both general and local government elections.
