

REDGRAVE CHURCH HERITAGE TRUST

St Mary's church is owned by the Churches Conservation trust which does any larger repairs. The church is operated by Redgrave Church Heritage Trust which installed toilets and mini-kitchen and leases Steeple Meadow so that the 280 capacity of the church can be used for events with full off-road parking.

As with all similar venues it operated under Covid rules such that the only significant event over the past 2 years was the Orlando Jopling concert.

The church remains consecrated so that services can be held provided that they are not a significant use by comparison with the use by the wider community. All funerals are allowed and marriages require a special licence.

Bookings can be done by contacting bob.hayward@talk21

Volunteers are always welcome
